

PE and Sport Premium 2015-2016

The Government is providing additional PE and sport funding to all primary schools. The aim of this funding is to improve the quality, provision and sustainability of PE and sport in our schools and develop healthier lifestyles for our pupils.

Objectives

- Develop staff subject knowledge, skills and confidence in delivering PE across the school.
- Increase pupil participation in school games and local sports competitions/festivals.
- Develop PE resources to enhance the teaching and learning of PE and engage pupils in a healthier lifestyle.
- Promote the importance of a healthy lifestyle to all pupils.

2015-2016 Funding

For the academic year 2015-2016 North View Academy received £8,355 in PE and Sport Premium funding.

- Specialist coaches from the Foundation of Light worked alongside teachers to increase subject knowledge and skills. These qualified coaches taught high-quality basic moves, games and football alongside class teachers, focusing upon areas identified by the teachers for their PE development. All specialist coaches worked with the class teacher to guide the assessment of the children's performance and discuss future lessons and skills progression
- Different activities were introduced to help engage, motivate and enhance the learning of all pupils across the school. This included skipping workshops, hula-hooping workshops and circus skills sessions delivered by specialist coaches and followed up with similar activities delivered by staff in school.
- Further develop PE and playground resources to enhance the teaching, learning, assessment and sustainability of sport in our school and encourage all of our pupils to participate in a wide range of sports/games and become more active.
- Subscribe to various organisations and resources to enhance the PE curriculum and provide all pupils with the opportunity to develop skills which can lead to nationally recognised accreditation in athletics.

The funding was spent in the following ways:

Category	Activities
Subscriptions	Cyber Coach Smart Subscription
CPD	CPD (Archery Training 2x staff),
Playground	Improvement to playground environment. Extension to trim trail completed February 2016
Equipment	Renewal of Sports and Archery equipment
Coaching	Specialist coaching. Foundation of Light sports coach to work alongside staff 1x week (each teachers receives a half term of coaching as part of PE CPD).

	Circurama (circus skills workshop) and HoopStarz (hula hoop workshop). Skipping School (skipping workshop day). Trampolining.
Sportsafe	SportSafe equipment checks

Impact of Funding for 2015-2016

- CPD – the funding enabled North View Academy to buy into the Biddick Academy PE Sustainability Programme. This provided invaluable training, support and networking opportunities for the subject leader and teaching staff. Teachers' subject knowledge and confidence in delivering PE was enhanced and this will have an on-going, positive impact on the quality of teaching and learning across our school. As part of this partnership our school has been able to take part in various sporting festivals with local mainstream primary schools. These festivals have broadened our pupils' participation in competitive and collaborative sports/games. Below is the list of some of the Festivals we have participated in this year :
 - 22.9.15 Sportshall Athletics Competition(Y5/6)
 - 13.10.15 Quick Sticks Hockey Festival (Y4)
 - 19.11.15 Young Leaders (Y5)
 - 24.2.16 Sportsability Festival - Boccia, tennis, cricket, football, archery (Y3-6)
 - 8.3.16 Infant Agility Challenge (Y3)
 - 17.3.16 Mini tennis (Y4)
- The funding has also allowed continuing staff CPD in the form of a coach from Sunderland AFC Foundation of Light. This specialist coach is timetabled to work alongside each teacher for half a term (1 lesson per week). Staff were asked to identify a strand of PE they would like to develop and the coach has delivered these sessions allowing staff to work alongside him. Teachers' subject knowledge and confidence in delivering PE has been enhanced and this will have an on-going, positive impact on the quality of teaching and learning across our school.
- Development of playground area with an extension to our trim trail, specifically designed to develop balance and co-ordination. These resources encourage all of our pupils to be more active and nurture an enjoyment of physical activity. Pupils enjoy the range of strength, agility and balancing skills this equipment offers.
- Improved provision of equipment to increase the variety of multi-skill activities in lessons. All pupils now have access to a wider range of good quality PE equipment to help develop their skills and enhance their learning experience across the PE curriculum. Some of the equipment is also used to enhance sporting experiences in After School Club allowing all pupils to take part in archery, an activity not provided through our PE curriculum.
- Following on from the success of Health and Fitness week last year we have continued to engage the pupils in additional activities to those offered through the PE curriculum. For the academic year 2015-2016 a workshop day has been organised each term to widen all pupils' experiences of sporting/fitness activities. Circus skills offered a range of activities which engaged the pupils and helped develop their fine and gross motor skills, balance and coordination. The hula-hoop workshop was very

successful last year and again this year with the pupils developing their skills. Many pupils have enjoyed developing their hula-hooping skills following these workshops during break times. A Skipping School workshop day was organised for July which the pupils thoroughly enjoyed, and again all pupils will be encouraged to continue developing what they learned during this day.

Sustainability

- Through the CPD programme we have used staff have become more confident in delivering PE and this can only have a positive impact moving forward.
- We have developed some good links with other schools and are now part of the Schools Games programme. This will enable us to continue to take part and compete in sporting festivals, competitions and various other activities allowing our pupils to participate in a wide range of sports at both an interschool and intraschool level.
- Having improved the quality of our PE resources this will continue to enable staff to deliver engaging and well-resourced lessons in PE well into the future.
- The development of equipment around the playground will encourage and enable all pupils to be active in unstructured times for many years to come.
- Through these programmes and teaching our pupils are developing an understanding for the need to lead active lifestyles and are keen and eager to participate in all experiences offered and enthusiastic to try new ones.
